

Objectives Sheet

LOG 0670 - Diminishing Manufacturing Sources and Material Shortages (DMSMS) Basic Component Research

Course Learning/Performance Objectives followed by enabling learning objectives

LOG 0670.U01.01	LOG 0670.U01.01 - Explain why basic component research is integral to the DMSMS management process, and describe the foundations of basic component research.
LOG 0670.U01.01.01	LOG 0670.U01.01.01 - Define DMSMS and its characteristics
LOG 0670.U01.01.02	LOG 0670.U01.01.02 - Define basic component research.
LOG 0670.U01.01.03	LOG 0670.U01.01.03 - Identify the steps of the DMSMS management process.
LOG 0670.U01.01.04	LOG 0670.U01.01.04 - Recognize the references, tools, techniques, and data sources used to prepare for basic component research.
LOG 0670.U01.01.05	LOG 0670.U01.01.05 - Recognize the drawing types used in basic component research.
LOG 0670.U01.01.06	LOG 0670.U01.01.06 - Describe the three primary scenarios under which you would conduct basic component research.
LOG 0670.U01.01.07	LOG 0670.U01.01.07 - Identify sources to research alternate parts.
